

Dear FCC,

I am served by K-Love radio on frequencies 88.7, 89.9, and 93.3 in my area. I was troubled to learn I may not be able to receive my signal due to a possible expansion of LPFM service. K-Love allows me to enjoy a very limited service, Christian radio format. Without K-Love there would only be one other Christian radio station in my listening area. Obviously, I would prefer more than one Christian radio stations available.

I would prefer LPFM service not interfere with my current listening options. It is in the public's best interest to have as many listening options available as possible.

Thank you,

A handwritten signature in black ink that reads "Nathan L. Scott, OD". The signature is written in a cursive, flowing style with a large initial 'N' and a distinct 'OD' at the end.

Nathan L Scott, OD
